

C ~~It Don't Feel Right~~

Hot dog I'm livin in morality
Smug dab in the majority
Down what a man in America can
High on the hog in the cream of our prosperity

But it don't feel right - at all

NG it don't feel right

It don't feel wrong

That's why I'm singin this song

Somebody in it missin -

So I think about it later tonight

It don't feel right; ~~It~~ don't feel right

Got me shoes in sox in a big buckle belt
Flowers on the radio have begun to melt
Wore a quiz watchin lots of show big
Knew what I wanted but never figured how it felt
(Ch.)

Went to school where I specialized
Had a little hitch but in just to get the rides
Clean cut and free

Into what I thought to be

lucky to have made it on the win side.
(Ch.)

Went to Tijuana on a Sat. night
Smoked ~~some~~ some marijuana
Saw some hard core 100%

My hormones are quite fit

Nothing that I can regret

Makin lots of progress every day in sight
(Ch.)

Everything I flash how excited I get

But it never follows up with what I expect

~~hangin out~~ somewhere n how something that

I gotta find out
Or maybe just a lot of shit I gotta forget. (Ch.)
