

GM

It's late - the offices asleep
n duty waits for you and me
n - but sometimes it sure seems
There's so much to get done oh oh

The maiden - all in her sore distress
Went to city hall and crawled up the steps
May looked at the clock
Said I must close the desk
Though there's so much to get done
Pretty maiden!

So much to get done!
The channel swam - he grieved and sworn
Had the rocks of Normandy oh almost in his hands
One stroke to get he said can't do it
Back he swam
Cause there's so much to get done. Park Ocean!

(Ch.) So much to get done!
So much I can't sleep at night
So much I can't work in the day
If you know one thing to do
Steadily ~~it~~ would you say.

Knew a man who took his time
and never pushed a day
He had time to feed his plants
and sleep and eat and play
Now there are thousands grateful to him to this day
Though there's so much to get done! dear teacher!

(Ch.) It's late - maybe I should read
It's late - is there something that I need?
It's late - all the wise men are asleep.
Though there's so much to get done in wisdom!
