

The Loveliest Beast of them All

The loveliest beast of them all —
Only she hoboknew
Rolled on the hills in delight
and in da light o' da moon,
Moon that shined pure silver
Whenever she beast would move

Oh what an honored man
to have such a friend
as the loveliest beast of them all

A fire burned in his skull
Till she vagrant met the brute
Twas then one day by accident
Oh — they were introduced
He heard a lot about you
But can this be true

(Chorus)

Crossing some black ocean
It makes me drop my jaw
That bum is riding the dragon
Out beyond our sight or call,
Amazing what can happen
all in this world of straw

(Chorus)
