

On Some Mornin' Not Too Far Away

- ① Some mornin' not to far away,
Sister's gonna catch that train
You know she'll be comin back again
On some mornin' not too far away. (Repeat last line)
- ② Farewell sister keep you strong
And may that strength be soft.
Whatever you learn, don't let it turn
your mind life and make you tough.

I know your mamma and all your daddies
Have had a lot to say
Oh you'll throw 'em kisses ridin' high in free
On some mornin' not too far away.
Hello sister do not fear
The jungle in our soul
Swimmin in the swamp we lose our pomp
And wash away our goals.

I know your mamma she don't like me
While we have found the pain in play
But you'll be free from history
On some mornin' not too far away.
Bright young sister, the Beast of Prey
Has got us in his arms
He wants our flesh and we say yes
For he will keep us warm.

Your sisters and your brothers all wish
you well

On your journey to Great Cathay
When you return just bring yourself
On some morning not too far away.
