Heatwave

It's warm in than your thumb
It's warmer as can be
" " er as ever
" warmer than a fucker
It's fucking hot } repeat
" " "

Get thee to me Red Sea
Made in the Shade Hungry Eye
Man oh Man electric fan

Fry an egg on the sidewalk
Collecting my sweat in the pond
Feeling so unsociable — heatwave
And I can't even respond

Now I wish it was summer in New Orleans
and be with a movie star
Feeling her slip with her sweaty breasts + the hips
Drinking gin from a jar

Oh The heatwave makes us poor folks sticky
We gather out on the streets
We'll be breakin windows + grabbin 'tails
and yellin at other people to set us free.
It's the heatwave — it's hot (repeat)
