Ride The Wave / Drive The Wave

G F#m7 Am7 Em

Early morning, looking nowhere out the window

Wonder what I'm getting into

Things will change

Things must change

And I'm gonna drive that wave my friend

Drive the wave, drive the wave
I'm gonna drive the wave

Supie told me - Do take a good look
Try not to get hooked
Just don't fight
No need to fight

Chorus

Early evening, the belly dancer waves
Hermit sit in their city caves
Supie in a camel's eye
Life and death walk on by
Ride + Drive, Drive + Ride
