

Let's Go IN THE NUDE

^{CO} Let's go in the nude way away outside
^{GO} Somewhere where the grass is green
We won't be rude and go to a busy spot
^{AM} Showin' people what they've never seen
^{AM} Let's go somewhere no one's ever been
Let's go in the nude
Baby you and me.

Spend so much time just flat avoiding ourselves
Maybe this will cut the air
If you don't mind take off your earring
Let's have nothing but skin and hair
The weather all that we will wear
Let's go in the nude
Way away somewhere

^{CO} Don't want to make a movie for to play on North Beach
^{CO} Don't want to impose on campers in the parks
^{CO} Don't want no special feeling as if we were stealing
Just want to get out from the dark

Now clothes make sense and I don't put them
down

But sometimes we could have a change
The governments we can tip toe past
They'd surely think we were quite insane
Stoping us 'n takin down our names
Let's go in the nude
Baby just the same

^{CO} Let's go in the nude
