Each live birth shall be registered with the registrar of births and deaths for the district in which the birth occurs within five days following the birth.

For the births which occur in a hospital, the physician in attendance upon the birth shall have the responsibility for registering the certificate with the local registrar.

For the births which occur outside of a hospital, the physician in attendance at the birth or the presence of a physician or other one of the parents shall be responsible for entering the information on the certificate, securing the required signatures, and for registering the certificate with the local registrar.

LEGAL REQUIREMENT OF REGISTRATION OF LIVE BIRTH

Definition of Live Birth

"Live birth" means the complete expulsion or extraction from its mother of a product of conception (irrespective of the duration of pregnancy) which, after such separation, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.
